Objective

To obtain a full time job in a computer or software engineering field where I can demonstrate my hard work and further increase my technical skills in order to contribute to the success of the organization.

Education

University of Calgary

2011-Present

- Bachelor of Science, Electrical Engineering with a Computer Engineering Minor
- Expected graduation: April 2016
- GPA: 3.9/4.0 cumulative

Skills

- Very experienced programming using C++, C, and Perl.
- Used Matlab, D, Python, and Java.
- Experienced with embedded system and application software development.
- Strong problem solving and troubleshooting skills.
- Used Agile development practices including TDD and Domain Driven Design.
- Reliable, dependable, and personable.
- Very hardworking and motivated.
- Can learn and adapt quickly to challenges.
- Passion for electrical and software engineering.

Work Experience

Lockheed Martin CDL Systems Ltd., Calgary

May 2014 - Aug 2015

Software Developer

- Worked on software to interface between two protocols for UAV flight control.
- Used Test Driven Development and other Agile methodologies.
- Gained experience with C++ with QT, Perl and Git.
- Learned and implemented Domain Driven Design.
- Developed for Windows, Linux, and Linux on ARM.

NSERC Research, University of Calgary

May 2013 - Aug 2013

Summer Research Student

- Developed and executed tests to determine accuracy of a hexacopter dropping sensor nodes.

- Troubleshotted and solved problems with hexacopter.
- Created a program to capture position of hexacopter using video tracking with C++ OpenCV.
- Analysis of data using Matlab and C++.
- Presented results and data in meetings and reports.

Whole Foods Market, Penticton BC Sept 2008 - Aug 2011, May - Aug 2012
Stocker, Cashier

- Responsible for making sure all extra stock put on the shelf when possible.
- Received orders and created sales displays.
- Flexible, filled many roles. Cashier when needed.
- Developed communication skills for maintaining customer satisfaction.
- Trained new employees.

Extracurricular Activities

University of Calgary Solar Car Electrical Team **Sept 2013 - Present**

- Created telemetry protocol over XBee.
- Used C++ with QT framework.
- Worked on embedded system for driver controls.
- Interfaced with multiple systems over CAN, UART, and SPI.
- Experienced with prototyping circuits and soldering.
- Was software team lead, mentored newer members.
- Team projects are located here:

– github.com/UCSolarCarTeam

Many Mini Bots **Sept 2013 - May 2014**

- A group dedicated for producing and interfacing many small bots.
- Involved with building a tricopter.
- Creating documentation for creating more multicopters.

Schulich Aerodesign Team **Sept 2011 - Aug 2013**

- Received hands on experience designing and assembling a radio controlled aircraft.
- Built two, greater than 2 meter wingspan RC plans for SAE Aerodesign Heavy Lift Competition.
- Dealt with very limited resources and hard design constraints throughout the project.
- Was a key member of the build team.

Hobbies

- Back-country hiking and camping.
- Long distance running.
- Video games.
